

Rinse agent

Ulrich
natürlich

Advantages of the product

- For streak-free and clean dishes without water stains
- Rinse water drips off easily as the surface tension of the water is broken
- Less mold formation on dishes due to quick drying

Concentrate: economical and efficient in use

No animal testing

Without dyes, optical brighteners, bleaches, palm oil, enzymes, petrochemical ingredients

Only essential ingredients are used in our products

Easily biodegradable & environmentally friendly

Labelling for contents according to Regulation (EC) No 648/2004

< 5 % non-ionic surfactants

Certification

The Ulrich natürlich rinse agent for dishwashers is certified as NCP-Vegan by ECO-Control according to the latest Nature Care Product Standard (NCPS). The Nature Care Products Standard regulates the requirements of certified care products. The NCP standard covers in particular washing and cleaning products, textile and leather care.

In addition, Ulrich natürlich rinse agent for dishwashers is registered with the Vegan Society. The Vegan Society checks, among other things, all raw materials used in Ulrich natürlich recipes and classifies them as vegan if they meet the relevant guidelines.

Application

Pour into the dishwasher reservoir, check frequently and refill if necessary.

Dosage: according to the machine manufacturer's instructions. Underdosing leads to limescale streaks and droplet formation, overdosing leads to streaking.
